WHY?

By everything we do, we believe that we can contribute towards a better, healthier world, through organic food.

HOW?

Our dream is to become the industry standard for trustworthy organic foods. We aim to turn this dream into reality by offering ecological products mainly by processing our own produce harvested from the lands we cultivate and obtained from the animals we grow and nurture ourselves.

WHAT DO WE DO?

We're passionat about organic products and we always use the most secure sourcing. That's because we cultivate and grow nearly everything at our ecologically certified farms from Sălaj Country in the North of Transylvania.

ECOLOGICAL ALSO KNOWN AS BIO OR ORGANIC

Bioforia's organic dairy products are crafted so that people get as healthy as possible, the environment stays as clean as we can keep it and nature starts looking even more beautiful.

EXCLUSIVELY ORGANIC

The fact that we truly care about ecology is what compels us to have a fully organic process across our whole production chain. We only grow organic grains and all the livestock we raise is raised organically. We process and pack exclusively organic products, without compromise. Even the animal feed and the ingredients that we purchase to mix in our products are also organic.

ROMANIAN ORIGIN

Most of the people working on our cooperative of farms are locals, proud of their heritage and community. Together we make food products out of the land that we work ourselves and from our cattle that we grow and nurture on our own. We never import or collect the milk we use in our dairy products. It comes exclusively from our cows, over whose livelihood we have complete control.

SHORT FOOD SUPPLY CHAIN

We've built a fully integrated production flow, so that we are able to strictly control the high quality of our products. Beginning with the seeds in the ground, all the way to the milk that we produce and pack on our own, we make extra sure that we deliver a truly organic product to the shelves.

SIMPLIFIED PROCESS

Processing is kept as simple as possible, with pausteurisation performed at a medium temperature. We don't add powdered milk, we don't integrate albumine, vegetable fats or any type of flavour enhancers. The taste of Bioforia dairy products is the taste of authentic organic

DAIRY PRODUCTS

DAIRY PRODUCTS AND ORGANIC OILS, PLAIN, FOR DAY-TO-DAY USE

Whether it's your favourite dish or a healthy dessert, flavour comes from just a few basic ingredients. For cooking needs, we've established Clasic Range or plain products: cottage cheese, white cheese, sour cream, butter, all organic, packed in family-sized containers, and bottled extra-virgin, cold-pressed, sunflower oil, 85% omega 9 high-oleic.

DAIRY PRODUCTS

DAIRY PRODUCTS AND ORGANIC OIL, WITH A VARIETY OF FLAVOURS

To each his own taste. That's why we created a bite-sized, tasting range of products, packed in glass jars. Either for a small snack or a full-blown picnic, we're offering cottage cheese with sour cream, dill or raisins; diced white chese in spicy or herb-infused oil; and butter, either salted or with dried herbs. All that, alongside spicy or herb-infused sunflower oil and rapeseed oil in glass bottles.
